

## **LEED INFORMATION**

### **OCTOPUS PRODUCTS**

The following information is a guide to indicate which LEED credit areas Octopus Products materials may help to contribute to LEED points.

#### Materials & Resources

##### Credit 5.1 Regional Materials – 20% Manufactured Regionally

In order to qualify for this credit, the point of final assembly of the cabinetry must be within a 500 mile/ 800 km radius of the final point of installation.

#### Indoor Environmental Quality

##### Credit 4.1 Low Emitting Materials: Adhesives & Sealants

OctoLam high pressure laminates can be installed using water based adhesives that will help contribute to Credit 4.1. Suggested suppliers are:

3M	<a href="http://www.3m.com/adhesives">www.3m.com/adhesives</a>
Helmitin	<a href="http://www.helmitinadhesives.com">www.helmitinadhesives.com</a>

##### Credit 4.2 Low Emitting Materials: Composite Woods and Laminate Adhesives

OctoLam high pressure laminates can be bonded to many available substrates that have no Urea Formaldehyde added. There are 2 products available with no Urea Formaldehyde content:

Nu Green	<a href="http://www.uniboard.com">www.uniboard.com</a>
Pureboard	<a href="http://www.columbiaforestproducts.com">www.columbiaforestproducts.com</a>
